

Dear customers and business partners,

the fast spread of the Covid-19 poses great challenges for all of us, both in business and personally. We at Brugg Cables take the situation very seriously, comply with all the given guidelines from the government and take additional internal measures:

Our top priority is the safety of our employees, customers, suppliers and all other business partners. At the same time, we are maintaining operations and the implementation of orders.

The majority of our office staff is located in home office and is available to you as usual by e-mail or telephone. Intensive measures have been taken in production to protect our employees.

The management and the crisis team consult with each other on a daily basis to reassess the situation and implement the necessary measures quickly. It is very important to us to ensure open internal and external communication and to inform our partners about changes and next steps on our part. Thanks to our broad-based Business Continuity Management (BCM), we expect to be able to maintain operations even if the Covid-19 situation continues to deteriorate and all security measures are maintained. This will ensure that we will continue to be able to deliver.

We are convinced that together and with constant cooperation we will survive this hectic time. If you have any questions, we will be happy to answer them and wish you all stamina and of course good health.

Your Brugg Cables Team
